## The Easiest Way to Earn Bitcoins

### Who We Are

Cloudhashing was founded in February 2013 to take all of the hard work and complexities out of Bitcoin Mining. Great relationships with hardware manufacturers allow us to consistently offer the best pricing and highest potential returns to our customers.

### How You Earn Bitcoin

Cloudhashing provides an opportunity to potentially earn more bitcoins for your dollar than buying them outright. The appeal of mining Bitcoin rather than buying is to receive bitcoins at wholesale prices rather than market price. We work with customers for economies of scale to receive better prices on hardware, power and data center space, and in turn we share in the potential returns that mining offers.
